

REACH 233 SVHC's Compliance

Statement Issue Date: 14 December 2023

Subject: REACH 233 Substances of Very High Concern (SVHC)

Products Covered: All products manufactured by Masterclock, Inc.

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals, EC 1907/2006) is the European Union's (EU) chemical substances regulatory framework. REACH requires Masterclock to provide customers with sufficient information on Substances of Very High Concern (SVHC) contained in products in concentration above 0.1% weight by weight (w/w) to allow safe use of the products.

To comply with this requirement, Masterclock certifies that to the best of its knowledge all products that it manufactures and supplies do not contain substances listed on the Candidate List of Substances of Very High Concern, as updated on 14 June 2023 REACH 233 SVHC, in a concentration above 0.1% weight by weight.

Masterclock, Inc. strives to remain compliant with regulatory requirements through an ongoing review of raw materials, processes and vendor evaluations.

A handwritten signature in black ink, appearing to read "Kevin Foster". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
