

18" - 46cm STAINLESS STEEL WALL CLOCK

Synchronizes to Network Time Servers (NTP)

FEATURES

- Uses external (or your own internal) NTP source for accurate time traceable to NIST
- All international time zones
- Daylight saving time – available and configurable for all countries
- Uses standard Ethernet wiring
- Utilizes microprocessor controlled stepper motor
- Sweep second hand
- Universal AC input voltage & frequency
- Optional POE (Power Over Ethernet)
- Optional face plate illumination – white or red
- Internal crystal and clock chip
- LED Status Indicator
- Deluxe hand made stainless steel chassis
- Large 18" – 45cm clock for easy viewing

SPECIFICATIONS

SETUP AND CONTROL SOFTWARE:

- Supports DHCP/BOOTP for automatic acquisition of network address, nameservers, and time server configuration
- NTP synchronization options, and more
- Provides dynamic configuration for networking parameters, time zone/daylight savings time
- Configure clocks through provided network discovery tool or TELNET
- Network discovery tool provides automatic discovery of NTP clocks attached to network without changing PC's networking configuration
- Configuration is saved to non-volatile memory and survives power losses
- Encrypted network messages prevent unauthorized tampering of clock configuration

INPUTS

- Ethernet – RJ45
- IEC Power Connector

POWER

- 90-265 VAC 50/60 Hz
- IEC AC power connector and cord
- Specify US, UK, EURO, or AUS/NZ plugs
- POE (Power Over Ethernet) option available

PHYSICAL

- 18" (46 cm) round stainless steel metal case with polycarbonate lens/crystal, 4.25" (10.8cm) high
- Stainless steel rear cover plate
- Wall mount bracket provided
- Weight – 11.4 lbs – 5.1kg
- Optional 12/24hr face available
- Optional true 24 hr clock available

COMPLIANCE

- CE Marked – available for sale in EU
- FCC, Class B, Emissions
